

Living or Non-living?

The ocean is made up of many things – **living** things, **non-living** things and **once-living** things. Humans even use objects of the sea to make **products of living** things!

Circle whether *you* are a living or non-living thing? **Living** OR **Non-living**

There are many **living**, **non-living**, **once-living** and **products of living** things you might find at SEA LIFE Sydney Aquarium. Try and spot as many as you can! Tick the boxes as you find them.

Circle the **LIVING THINGS**. Put a star next to the **NON-LIVING THINGS**.

DUGONG

SEAWEED

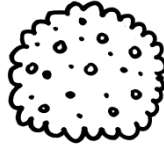

SHELL

LIPSTICK

FISH SKELETON

SPONGE

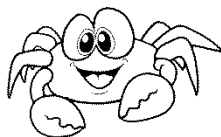

DEAD CORAL

WATER

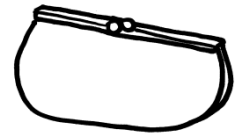

ROCK

CRAB

SAND

STINGRAY PURSE

SEASTAR

SHELL NECKLACE

SEA SNAIL

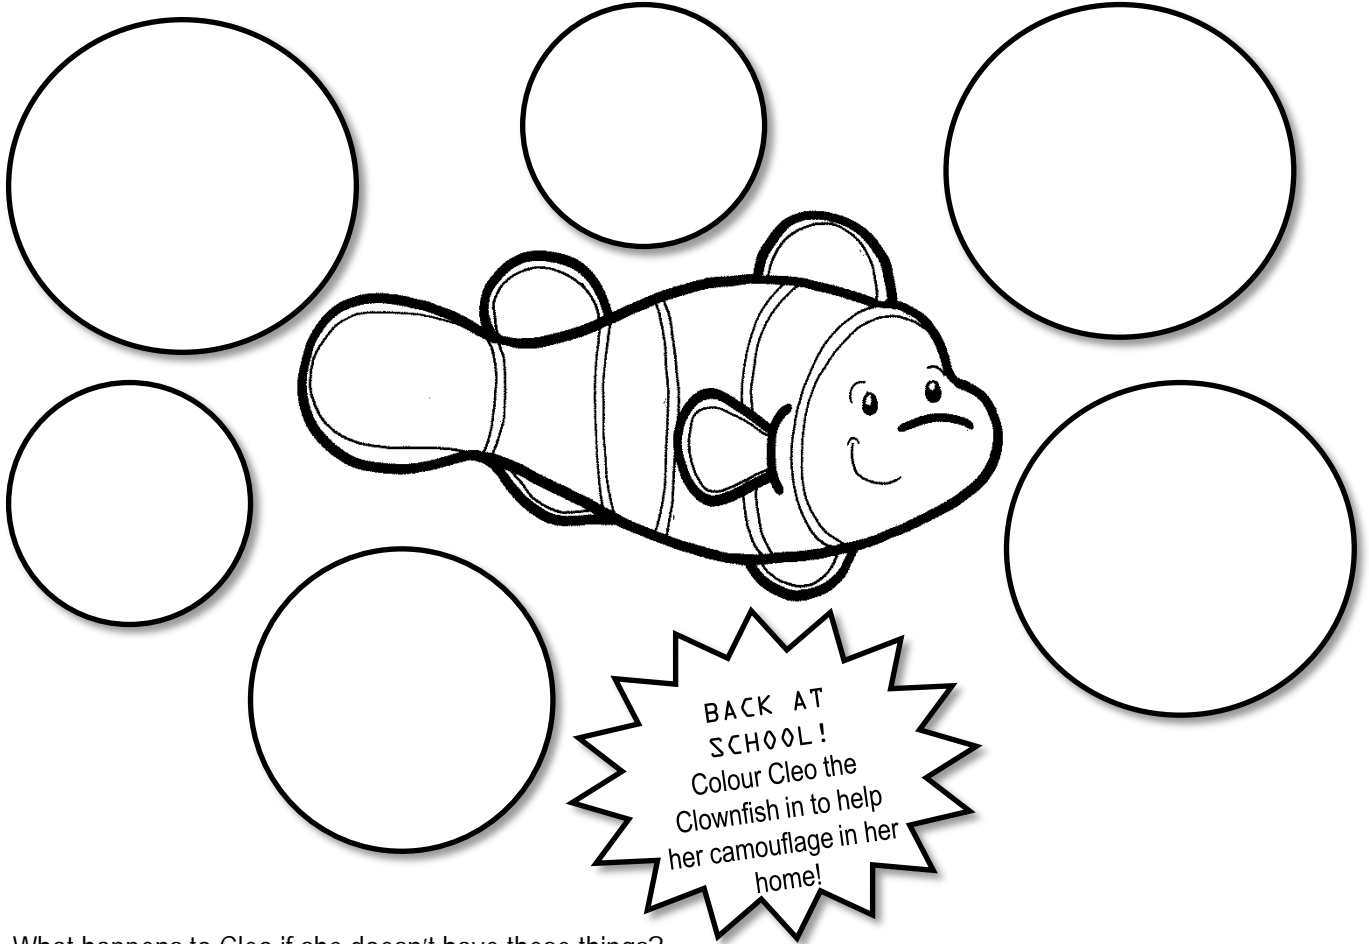

PEARL EARRINGS

Which of the above are the **PRODUCTS OF LIVING THINGS**? _____

Which ones were **ONCE-LIVING THINGS**? _____

Needs of Living Things *Complete in Sydney Harbour or Great Barrier Reef.*

Animals and plants need things to help them survive. Find some Clownfish in the aquarium. What does Cleo the Clownfish need to help her survive. Draw them in the bubbles around her:

What happens to Cleo if she doesn't have these things? _____

Froggy Needs! *Complete Back at School*

Frogs need different things at different stages of their lives. Draw a line to what the tadpole and the frog needs to survive.

- WATER TO SWIM IN
- INSECTS
- PLANTS
- MOISTURE
- POLLUTION
- A MATE
