

# Underwater Seafari - Adaptations

Dear Teacher,

Today you will be embarking on an 'Underwater Seafari'. Your group will head on a journey of discovery where your students will explore the wonderful objects of the sea learning more about their names, shapes, sizes and colours.

Please nominate a name for your group and write it in the spaces provided.

Your role today is to assist your group of students to find the objects on this treasure trail. Tick the corresponding boxes on Side 2 when you spot the animals.

Have fun!

Our group name is:
